SUMMARY

Full stack web developer with a pharmacy background and the intuition to help others. Successfully graduated with a certificate in Full Stack Web Development from The University of Sydney. A quick learner and problem solver driven to continue growing in order to build better web applications. Developed responsive websites and projects independently as well as in a team of three to four within the time frame. My ability to adapt and persevere through difficulties allow me to improve and be an asset to any team.

TECHNICAL SKILLS

Languages: Acquired knowledge in HTML, CSS, Javascript, jQuery, Node.js, MySQL, MongoDB.

Technology: Bootstrap, MaterializeCSS and Moment.js.

PROJECTS

Weather App | <https://github.com/acho9138/Weather-App> | <https://acho9138.github.io/Weather-App/>

- Summary: Search a city around the world to get the current weather as well as the next five days. Able to refer back to previously searched cities to view the weather information again.
- Responsibilities: Built the app from scratch
- Tools/Languages: Moment.js, MaterializeCSS, jQuery, OpenWeatherMap API

Password Generator | <https://github.com/acho9138/HW3-Password-Generator> | <https://acho9138.github.io/HW3-Password-Generator/>

- Summary: Generates passwords according to the user specified requirements (length, lowercase, uppercase, numbers or special characters)
- Responsibilities: Write Javascript code to generate password with the specified requirements
- Tools/Languages: Javascript, HTML, CSS

Work Day Planner | <https://github.com/acho9138/HW5-Work-Day-Planner> | <https://acho9138.github.io/HW5-Work-Day-Planner/>

- Summary: Saves events entered in a specific hour of the day and stores in local storage. Hours are colour coded to indicate past, present and future events.
- Responsibilities: Write Javascript code to save entered events and re-render it when the page is reloaded using Moment.js.
- Tools/Languages: Moment.js, jQuery, HTML, CSS, Bootstrap
